

EPIQ 4

The EPIQ 4 series includes nine versatile budget friendly options, with 90+ CRI and three color temperature options. Upgrade to a modern square look with simple click-on trims, available in three finishes.

Performance

- Versatile and affordable family that includes nine retrofit options for a regreseed round LED downlight; and square trims in three finishes that quickly and easily click on for a completely different look
- High CRI (90+) retrofits are dimmable with most standard incandescent (triac) and low voltage electronic dimmers (5-100% light control)
- ENERGY STAR pending

Construction

- Metal core PCB with aluminum heat sink and 99% diffuse reflecting cone for optimum longevity and light output
- Stamped aluminum with durable baked enamel finish trims
- Click-on trim options are injection molded heavy-duty plastic with polyurethane finish for a strong, wear-resistant surface
- Frosted polycarbonate lens diffuses light

Installation

- Steel torsion clips secure downlight into most standard 4" cans (requires only 4" high clearance)
- cETLus Listed for Type IC and wet locations
